SMART MOBILITY FOR A SMART CITY

Abu Dhabi is the first city in the region to introduce fully driverless taxis — a groundbreaking initiative operated by **WeRide**, in partnership with **Uber**. Autonomous vehicles are already in operation across **Al Reem Island** and **Al Maryah Island**, with the network rapidly expanding across the city.

For Al Reem Island residents, this marks a new era of **seamless convenience and sustainable mobility**, while for investors, it signals **enhanced property value** driven by the island's integration into Abu Dhabi's cutting-edge smart-city infrastructure.

INVESTMENT APPEAL

Al Reem Island consistently ranks among **Abu Dhabi's top three districts** for property return on investment (ROI).

With **average annual returns of 6–8%** for one- and two-bedroom apartments, the island offers strong rental demand driven by its proximity to Downtown and major business hubs.

Offering **lower entry costs** compared to Saadiyat or Al Maryah Islands — yet maintaining a comparable level of luxury and quality — Al Reem Island presents exceptional value for both residents and investors.

Supported by robust infrastructure, steady market growth, and investor-friendly policies such as the **Golden Visa program** and **0% income tax**, Al Reem Island stands out as a **secure, high-potential destination for long-term investment**.
